

City of Loma Linda Official Report

Floyd Petersen, Mayor
Stan Brauer, Mayor pro tempore
Robert Christman, Councilmember
Robert Ziprick, Councilmember
Charles Umeda, Councilmember

COUNCIL AGENDA: March 14, 2006

TO: City Council

VIA: Dennis R. Halloway, City Manager 

FROM: T. Jarb Thaipejr, Public Works Director/City Engineer 

SUBJECT: Award Contract for Professional Engineering Services to Design Storm Drain Improvements on Barton Road Between Benton Street and Richardson Street.

RECOMMENDATION:

It is recommended that the City Council award a contract to Goodman and Associates of Colton, CA in the amount of \$16,180 to design the subject project.

BACKGROUND:

The existing channel, protected by a guard rail, does not allow for a sidewalk, trail or landscaping. The proposed storm drain improvement will cover the existing open channel along the south side of Barton Road between Benton and Richardson Streets. The area from the Ronald McDonald house east to Benton Street could then be landscaped, have pedestrian installed completing the connection from Campus Street east to Mountain View Avenue. This project will include curb, gutter and paving as well.

ANALYSIS:

A Request for Proposal (RFP) was prepared and sent to five local engineering firms. The request was for providing the City with plans and quantity estimate to construct this project. Three proposals were received and evaluated. Goodman and Associates has provided similar services to the City in the past. Their work has been both timely and professional.

FINANCIAL IMPACT:

Funding was requested and approved during the mid-year budget review for this project. \$1,000,000 is available in account no. 77-1800-8500, Infrastructure.
